

Marine Pollution Services

Opeam is able to offer a total **marine pollution preparedness** package to ensure your organisation's emergency response meets the expectations of all stakeholders.

Satisfy your legal and environmental responsibilities using a recently released cost-effective solution from industry professionals, each with over 20 years' experience.

An integral part of our cost-effective solution is our ability to offer **OILLEASE** – a new concept allowing for leaseback of your current equipment, and leasing of any new equipment required.

AUDITS

- Equipment – is it right for the purpose intended?
- Emergency plan – does it meet legal requirements and the expectations of all stakeholders?
- Personnel – are they correctly trained?
- Risk Assessments – are they relevant and current?

EQUIPMENT & RESOURCES

- Oil spill response equipment
