

Safety Services

Opeam has both Safety Training Courses and Safety Officers available for the Marine and Hazardous Chemical industries. These Safety Services are regularly provided to major Corporations by professionals with over 30 years specialised experience.

TRAINING

Specialist training courses are conducted in our training room or on site, and include:

- Job safety analysis
- Fire extinguishers
- Risk assessment
- Breathing apparatus
- Permit writing
- Safety/Fire watch
- Confined space entry
- Atmospheric gas testing

SAFETY OFFICERS

Our trained Safety Officers may be utilised for short term projects, or as permanent "on site" contractors. Services include:

- Health & Safety Officers for oil tankers/dangerous goods
- Permit writing
- Safety/Fire watch
- Confined space entry standby
- LPG inductions
- Site inductions
- Atmospheric gas testing
- Project coordinators
